

FOR THE MASSES. THE HERALD IS THE PAPER THAT CANNOT BE UNREAD IN THE GREAT WEST. VOLUME XLVIII. NEWS, POLITICS, LITERATURE, TRADE AND COMMERCE--BUT FIRST OF ALL, THE NEWS.

CRISP WILL BE SPEAKER.

Nominated by the Democratic Caucus by Acclamation.

CLERK KERR RENOMINATED.

The First Ballot for Sergeant at Arms Results in a Tie.

News of Illinois Nominated on the Second Ballot, Defeating Yoder, the Present Incumbent--The Republicans Nominated Tom Reed for Speaker.

WASHINGTON, Aug. 5.--The hall of the House of Representatives was filled with Democratic members tonight, when Mr. Holman, chairman of the caucus, called it to order. It was known that Crisp's re-nomination as speaker was assured, and that there would be no contest over the door-keepership. After a short speech by Holman, Turner, of Georgia, nominated Crisp for re-election, after which he was elected by acclamation amid applause. Speaker Crisp spoke as follows:

"The extraordinary condition of affairs throughout the country has necessitated our meeting in extraordinary session. In so far as that condition is attributable to existing law we are in no wise responsible therefor now. For the first time in more than thirty years we are in full power. We can repeal laws, and we can make good laws. The people have entrusted us with that power, and expect us to exercise it for their benefit."

"Our financial system should be revised and reformed. Strict economy in public expenditures should be observed and taxation should be equalized and greatly reduced. For these purposes we are thoroughly committed. We must redeem our pledges. Let us begin work at once. Let us lay aside every other consideration that might divert our attention from the duties assigned us as to restore confidence, promote prosperity, and advance the general welfare of all classes of people. Sincerely grateful for your confidence and esteem I pledge myself to devote to the discharge of the duties of the responsible position you have assigned me, all the energy and ability I possess."

At the close of Speaker Crisp's speech, Kerr of Pennsylvania was renominated clerk by acclamation, and the caucus then proceeded to the election of sergeant at arms, the leading candidates being the present incumbent, Yoder of Ohio, and Snow of Illinois.

The contest was a most heated one. After the nominations were made it was discovered that the Ohio delegation was divided. Charges were made against Yoder that after his election in the last Congress he had appointed a Republican as chief clerk and induced a Republican for captain of the watch. Several representatives defended Yoder, among them Cammetti of California, who said he had carefully inquired into the charges and found them baseless.

Finally when the first ballot was announced it was found to be a tie, each candidate having 83 votes. A second ballot resulted in 95 votes for Snow to 85 for Yoder, the former being declared the caucus nominee. Other officers elected were: N. G. Lycurgus Dalton of Indiana, for postmaster; S. W. Hendricks of Maryland, Methodist, for chaplain. The caucus then adjourned.

REPUBLICAN CAUCUS.

Tom Reed is Nominated for Speaker, McPherson for Clerk.

WASHINGTON, August 5.--A Republican caucus was held in the rooms of the committee on judiciary tonight to nominate candidates for officers for the fifty-third congress. Henderson of Illinois presided and Hooker of New York acted as secretary. When it came to nominating a ticket that is to be the Democratic ticket, the committee decided to support anything he might be able to say. The nomination was made by acclamation, and after prolonged applause Mr. Reed responded in one of his characteristic speeches, his sarcastic drawl having lost none of its pungency during the summer recess.

Four months ago, he said, "They had left Congress and returned to their homes with the country in a prosperous condition. All the mills were running, spindles were playing, furnaces roaring, labor employed everywhere and people happy. Now," he continued, "we are called back to find an extraordinary business depression, distrust in all circles and a general demoralization of the nation. It is now a condition, of course," he said, "precipitated by Democratic failure to legislate. In this emergency, the Democratic will upon Republicans to lay aside all party spirit, forget anything that has been done in the past and join with the Democrats to get them out of their present trouble."

"There is no attempt on the part of Reed to outline a policy, and he concluded by saying that the Republican party would be found discharging its duty in a way to fit with the broad measure of the country when it was in the majority, and if it did this it could be asked to do no more."

The remainder of the ticket nominated was as follows: E. C. McPherson, Pennsylvania, sergeant at arms; A. J. Holmes of Iowa; doorkeeper, F. L. Hathaway of Montana; chaplain, Rev. Horace Green of New York. A recommendation was also made to the Democratic caucus to retain upon the rolls Captain Currier of Iowa as page.

A SPECIAL MESSAGE.

The President Will Transmit One on the Hawaiian Question.

WASHINGTON, Aug. 5.--It is stated that the president will send a special message to Congress at its opening as regards the Hawaiian question. Minister Blount's reports are being carefully prepared at the state department in the form of abstracts and extracts for the president's perusal. The situation in the islands is admittedly critical and the prompt indication of some definite line of policy on the part of the United States is called for. The president, it is said, will wait Blount's expected arrival on or about Aug. 20, and then report of the condition of affairs before definitely making up his mind what course to recommend to Congress.

A WILD STORY.

"It is now

TO ME, said Speaker Crisp, when a reporter asked him about the proposition.

Secretary Thurber could not say what the cabinet discussed, but it is understood that the president read to his forthcoming message to Congress. It is believed the message will treat solely of financial and tariff questions.

Harrison Not a Candidate.

WASHINGTON, Aug. 5.--L. T. Michener of Indiana, denies that there is any movement on foot to boom Harrison for re-nomination in 1896.

PENSION MATTERS.

Commander Weissert of the G. A. R. Is Interviewed. LOS ANGELES, Cal., Aug. 5.--Commander-in-Chief Weissert of the Grand Army of the Republic arrived here today. Asked about pension matters, he said: "My position as commander of the whole Grand Army is summed up in the brief order that I have issued, to wit: 'In September, 1893, that order was that every member of the G. A. R. having been obliged to encourage honor and patriotism in every citizen, are requested, in case they know of any one receiving a pension fraudulently, to report the same promptly to the commissioner at Washington. All G. A. R. men agree that the pensioning of every citizen is the striking from the rolls of anybody drawing illegal pensions, but members of the G. A. R. as well as all patriotic citizens object seriously to all such drawing of pensions, and who served honorably during the war being called frauds, bunners, bounty jumpers and thieves, especially when the pension is for a man who was in neither army during the war, and do not cite a single case where the law is being violated."

"The people are angry that the soldiers of the late war are citizens as well as veterans. Members of the G. A. R. were so anxious to enforce the law of the land between 1861-5 that they offered their lives for the purpose, and they have failed to hear of anything that has changed their minds since they quelled rebellion and are just as anxious to enforce the law as they were in '61, and they are anxious that not only the pension laws but others should be enforced."

A NEW COMBINATION.

Remarkable Plan of Campaign Endorsed by the Populists. CHICAGO, Aug. 5.--The executive committee of the People's party tonight made public a lengthy document endorsing the sentiments in the somewhat remarkable plan of a campaign outlined by President Fisk of the Pan-American Bi-metallic association, in a letter to President James of New York. The plan is a communication to the Trans-Mississippi congress and is a lengthy document. In it Fisk says:

"The people of the west feel as much interest and pride in the prosperity of one section of the Union as another. If they viewed it as a selfish standpoint, they would not have protection of eastern industries. We are willing, says Fisk, to pay for your protection, but you must consent to the restoration of the money of the constitution and remove the enormous tax you compel the western farmers and southern planters to pay or the west and south will take measures to protect themselves."

This proposal, according to Fisk's letter, will take the form of a repeal of the laws giving bounties to manufacturers and a restriction of silver, thereby removing the tax on the western product. They will also build up money, commercial and manufacturing centers at Mobile, New Orleans, Galveston, St. Louis, Chicago and San Francisco, withdrawing their trade and money reserve absolutely from the east."

Fisk says some western governors have already announced their intention of opposing a commission to go to Chicago to open negotiations with representatives at the World's fair of European governments concerning an exchange of commodities and the way by way of the Gulf of Mexico. If such cooperation can be secured with merchants of maritime ports of the old world, trade relations can be established with the Trans-Mississippi section, which in short time would be as firmly fixed as are now those of the eastern seaboard. The gulf railroad would dissolve their pool relations with eastern roads and join their interest with the trans-Mississippi section in diverting its freight to gulf ports."

The letter says a steamship line between Copenhagen and the gulf is already practically assured. In conclusion he says that less the east stop the senseless clamor to reduce the currency to a gold standard, which would mean reducing the people to feudal slavery, a combination would at once be formed with the west and south to withdraw all business relations from the east."

Washington on the Southern Pacific.

EL PASO, Tex., Aug. 5.--The heavy down pour of the last two days has literally washed everything away. The Southern Pacific road west of here is broken in many places, seven miles being washed out beyond Deming and no train will get through for two or three days. The Santa Fe and Mexican Central are in the same condition.

Killed in a Collision.

ST. LOUIS, Aug. 5.--2:30 a. m.--Advices just received from Danville, Ill., state that three men were killed in a head end collision of two freight trains on the Big Four near that city at 11:30 tonight. No other particulars are obtainable.

A MORE HOPEFUL OUTLOOK.

Friends of White Metal Are Much Encouraged.

A COMPROMISE CERTAIN.

The Schemes of the Gold Party Will Certainly Be Thwarted.

A Statement That the President's Message Will Not Be as One Sided as Eastern Papers Have Predicted--The Extra Session.

WASHINGTON, Aug. 5.--[Special.]--For the first time in six weeks the Capitol city has been lively and immense crowds are attracted to attend the opening of Congress in extra session. The Democratic caucus tonight was the occasion for much rivalry.

Visitors in attending look forward with much concern to the action of Congress on the financial question. It is conceded that Bland will be chairman of the coinage committee, but there is some doubt as to the completion of the committee. The prevailing belief is that a committee will be framed so as to report a bill to the House in the nature of a compromise and the friends of silver feel hopeful. The tone of the members is that while metal will be protected even if the friends of silver cannot get all that is desired. The situation has undergone considerable change and indications are that silver will hold its own against the schemes of the gold party. Bayard's advice for London has little effect, for the reason that he has always been a pronounced single standard man and has favored gold as a unit of value.

It is believed that the Democratic party possesses enough wisdom to legislate for the good of the whole country, and the statement is made that the president's message will not be as one-sided as eastern papers have predicted.

GOLD'S THEORY.

Hostility Towards Corporations, He Says, Causes the Present Depression.

NEW YORK, Aug. 5.--George Gould was a passenger on the American liner New York which arrived today. When asked regarding the financial situation he said: "The situation, of course, is very much demoralized. The main cause is the unsettled conditions due to the silver question. There is another cause, however, that the public is not so well aware of, and that is the hostility towards corporations. The hostility towards corporations is the cause of the present depression. The government is powerless and could do nothing to remedy the trouble. The same condition of affairs has never before existed. The banks taking advantage of the present stringency have been hoarding small bills for speculative purposes. The statement issued today shows an unusually large amount of small bills in circulation."

SILVER IN THE TREASURY.

The Going Value of the Bullion Amounts to \$167,000,000.

WASHINGTON, Aug. 5.--Inquiry at the treasury elicits the information that the government has on hand about 1,300,000 ounces of fine silver costing \$118,000,000. The going value of the bullion on hand is about \$167,000,000. If this were coined the government would realize a profit of about \$48,000,000 against which silver certificates could be issued. The revenue of the government is not so well as it was in the southwest at the present time, and I look for no change, unless there is something done at Washington. The repeal of the Sherman law will bring all back to prosperous times, but we may hope for nothing until Congress acts, and in just that way."

IDARO WAGON ROAD BONDS.

The New York Firm Who Contracted Them Refuse to Take Them.

BOZEMAN, Ida., Aug. 5.--[Special.]--A. Ballou, doing a jewelry business, has been closed upon claims amounting to \$6,000. His principal creditor is F. A. Nourse of this city, who backed him in business, his claim being \$4,600. The failure was precipitated by an attachment for \$927, sued out by L. A. Dinkel of San Francisco.

SMALL BILLS IN DEMAND.

Money Brokers Still Continue to Pay a Premium in New York.

NEW YORK, Aug. 5.--The demand for small bills and coin was not lessened today, and money brokers report a larger business than ever. They continued to buy gold and silver and currency at premiums of 4 to 5 per cent., and sent the money so obtained to banks all over the country. It was reported on good authority that much of the gold now afloat for this country, as had not been secured by savings banks, had been sold out of town banks, at a premium of one and one-half per cent. Larger importations have been denied that they had sold their gold, although they admit offers for it had been made to them.

KNIGHT & LEONARD FAIL.

The Well Known Printing Firm of Chicago Go to the Wall.

CHICAGO, Aug. 5.--Knight & Leonard, the well known and long established printing firm, has confessed judgment for \$47,000. Leonard is the father of the famous comic opera singer, Lillian Russell. Leonard says his liabilities are over \$75,000 and the assets are \$230,000. Inability to collect is the cause of the failure. The firm expects to resume on Monday.

COTTON MILLS CLOSE.

Seven Hundred Thousand Spindles Will Stop on the 15th.

NEW BEDFORD, Mass., Aug. 5.--The clearing house has notified the mills that no assurance money can be furnished for pay rolls after August 15th. The Wamsutter and a number of other cotton mills will close indefinitely. Seven hundred thousand spindles will be stopped by the shut down. The spinners' association urge the employees to husband their resources.

NATIONAL BANKS.

A Heavy Demand Made on the Bureau of Printing and Engraving.

WASHINGTON, Aug. 5.--Acting Secretary Curtis has ordered the force of the bureau of engraving and printing to work an hour extra each day until further orders, in printing national bank notes for which the demand just now is very great. The demand is occasioned by the fact that national banks are expanding their circulation.

Iowa Banking House Assails.

LEON, Ia., Aug. 5.--The Decatur

County Banking association, the oldest branch in southern Iowa, including branch banks at Davis City and Garden Grove, suspended this morning. The assets are \$471,000, and the liabilities \$315,000. T. S. Arnold is the assignee. It is believed the embarrassment is only temporary.

McKINLEY'S HOBBY.

He Says the Tariff Is Responsible For the Present Trouble.

SANDUSKY, O., Aug. 5.--Governor McKinley addressed an audience of 10,000 people this afternoon at the annual harvest picnic of the Erie County Agricultural society at Linwood park, Verdelion. His speech dealt largely with the present financial and business conditions. He pointed out that the business of the country rested upon the credit and faith in one another, faith in the industries of the country, faith in the destinies of the republic and when every man has lost faith paralysis followed.

What we wanted now was levelheadedness, but unfortunately as our situation was today it would have been worse if instead of having national bank money we had state bank money. Continuing he said that whatever influence the Sherman law may have upon the present condition, it is by no means the chief cause of trouble. He charged that uncertainty in regard to tariff changes was the principal cause of the present financial disturbance. Manufacturers are not going to produce for the future and pay protective tariff wages when their products may have to compete with like products under free trade wages. Let Congress when it meets next Monday, he said, make authoritative declaration approved by the president that the threatened changes will not take place; that they have discovered they are mistaken. If they will do that next Monday the fears of the business world will be quieted and business resume its normal condition.

SCARCITY OF CURRENCY.

Treasury Officials Cannot Account for the Shortage.

WASHINGTON, Aug. 5.--Officials of the treasury department are at a loss to account for the scarcity of currency throughout the country. At Boston and Philadelphia money brokers are selling small bills at a premium of from 1 to 2 1/2 per cent., and in New York the condition of affairs is even worse, the premium there being 3 per cent. Assistant Treasurer Mellie stated that the government was powerless and could do nothing to remedy the trouble. The same condition of affairs has never before existed. The banks taking advantage of the present stringency have been hoarding small bills for speculative purposes. The statement issued today shows an unusually large amount of small bills in circulation.

THE SHERMAN LAW.

Its Unconditional Repeal, Says Senator Teller, Impossible.

DENVER, Aug. 5.--A dispatch from Senator Teller, Washington, to the Times, says: The unconditional repeal of the Sherman law is impossible. All the claims made by eastern men opposed to silver that enough votes will be mustered in the Senate to repeal the act, are not true. Naturally the silver men will not be able, perhaps, to secure the enactment of what they desire, but they are in a position to force the opposition to a compromise. The situation is even better than was anticipated a few days ago.

NEW YORK BANK STATEMENT.

NEW YORK, Aug. 5.--Reserve, decrease, \$7,716,000. Loans, increase, \$2,281,000. Deposits, decrease, \$2,322,000. Circulation, increase, \$197,000. The banks now have \$14,018,000 below requirements according to the 25 per cent. rule.

After the Whisky Trust.

CHICAGO, Aug. 5.--Judge Tuley in the circuit court this morning ordered the dissolution of the whisky trust against the attorney-general of the state who brought proceedings to dissolve the trust, to continue the prosecution, so the case can be proceeded with.

Pittsburgh Mills Resume Work.

PITTSBURGH, Aug. 5.--The extensive iron and steel plant of Jones & Laughlin, Brown & Company's sheet and hammer mills and the Carnegie company's wire and nail mills will resume operations Monday, giving employment to 5,000 men.

To Meet the Demands for Notes.

WASHINGTON, Aug. 5.--The treasury has done all in its power to meet the demand for small notes in and around New York city. Last night \$1,000,000 was sent to New York and this morning an additional \$1,000,000.

California's Midwinter Fair.

SAN FRANCISCO, Aug. 7.--The convention of county commissioners of the midwinter fair held in this city today adopted a resolution urging the governor to call a special session of the legislature for the purpose of appropriating \$500,000 in aid of the exposition.

Obituary Record.

JAMES S. WRIGHT. PHILADELPHIA, Aug. 5.--James L. Wright, one of the founders of the Knights of Labor, is dead.

No Room Today. "There is room at the top," said the mercury today.

"At least that's what sundry philosophers say. But you'll find if some heed to this tube you will pay That there won't be a great deal of room today."

RUSSO-GERMAN TARIFF.

Signs of an Abatement of the War Shown on Both Sides.

RUSSIA CHANGES FRONT.

A Comparison of Former and Existing Duties Made.

The Socialistic Congress Will Meet at Zurich Monday, When Various Topics Will Be Discussed--Emperor William's Trip Northward.

BERLIN, Aug. 5.--Though the Russo-German tariff war has only been in active operation five days, there already are signs of abatement in the spirit of hostility on both sides. Several St. Petersburg papers inspired by the Russian foreign office, attacked the policy of aggression upon German commerce as initiated by M. Witte, Russian finance minister without a full sanction of the Imperial council, though with the knowledge that certain of the czar's advisers. Minister Witte is charged with under estimating Germany's strength in forcing the customs' war, while open regret is expressed that it was ever begun. The tone of official articles breathes peace. They conclude by asserting that Russia does not wish to increase the complications of the tariff war, but at a harmonious settlement of international question.

The North German Gazette, commenting upon Russia's abrupt change of front from negotiating a treaty to hostile action is dangerous to Russia's interests, publishes a table showing the former and the existing duties, and comparing them with the German tariff on Russian goods. The figures prove that the German tariff amounts on an average to only 25 per cent. of the value of the goods imported, and in some instances to 50 per cent., whereas Russian duties before the war began averaged 100 per cent., and were now raised to an impracticable height. This assertion that Germany originated the policy by raising her tariff and compelling Russia to raise hers.

Rumors are current on the Bourse that Russia is trying to raise from Paris bankers a loan of 15,000,000 rubles at 3 per cent. The socialist conference which opens at Zurich tomorrow will be largely composed of German and Austrian delegates. Practically it is a meeting of members of the extreme wing of German Socialists. The programme of the congress includes an international eight hour day and an international agreement for the celebration of a day of labor day; concerted political action on the part of socialists; position of socialists in the event of a European war; international trades organization, etc.

Emperor William is timed to arrive at the island of Heligoland Monday evening. During his stay he will witness a part of the evolutions of the North sea squadron. The Russian Greshamian asserts that the government expects a revolution in Norway and the declaration of a republic. The radical says Greshamian are purchasing and importing arms largely and preparing for an insurrection.

CHARGED WITH FORGERY.

The Trial of Ducret for Complicity in Forging Documents.

PARIS, Aug. 5.--In the trial of Ducret, editor of the Odeur, for complicity in forging documents alleged to have been stolen from the British embassy, in which it appeared that several prominent Frenchmen had turned traitors for British gold, and Norton on the charge of doing the forging; the latter testified that he had been offered the sum of the staff of the Petit Journal if the conspiracy succeeded, and that the documents were forged in Ducret's house.

Ducret denied the truth of Norton's statement. A sensation was caused by Marquis de Mores, witness for Ducret, shouting to M. Clemenceau "you have been for two years a secret agent of England."

"Prove it," replied M. Clemenceau. "Nothing is easier," retorted witness. The president of the court refused to permit the Marquis de Mores to continue and withdrew from the stand, saying, "Everywhere I meet you, Clemenceau, I shall say you are the secret agent of England."

There has been trouble between the Smith and Howell families for some time. This morning Washington Smith, his two sons, and Charley and William Howell, and his son Edward met at a threshing place.

Soon a quarrel started and Asa Smith opened fire with a revolver. Howells returned the fire and soon all were involved. Asa Smith was shot through the head and instantly killed. Charles Smith was shot through the lungs and will die. Washington Smith and William Howell also received bullet wounds.

Later a mob of her sympathizers surrounded the house and opened fire on the guards. Over twenty shots were exchanged before the officers surrendered and the woman was released. Three of the mob were wounded, it is thought fatally. They were carried away by their friends. More trouble is expected.

A Texas Editor Shot.

TEXARKANA, Ark., Aug. 5.--Captain J. W. Allen, editor of the Interstate News of this city, was shot and fatally wounded late last night by John J. King, county judge of Bowie county, Tex.
